FINAL RECOMMENDATION — **HOLD**

Target **\$117**

Highest-quality vehicle in industrial real estate, with intrinsic value near **\$124** and bull upside to ~\$146. At **\$145.00** the price already capitalizes the bull case — above NAV, DCF and comps, and 19% above our \$117 target. Risk/reward skews to the downside; we rate PLD **HOLD** and would add on a de-rating toward NAV or a step-up in data-center and strategic-capital earnings power.
