PROFESSIONAL EXPERIENCE

JLL, Chicago, IL

Nov 2025 - Current

Financial Analyst II

- Partner with business leaders and global finance teams to support forecasting, budgeting, and financial modeling for a \$5B leasing platform spanning 34 markets and three asset classes.
- Analyze transaction-level leasing and revenue data across 25k+ deals to evaluate deal economics, commission structures, and market performance trends influencing portfolio revenue
- Maintain and refine forecasting models to evaluate revenue performance, key assumptions, and variance drivers across markets and asset classes
- Produce executive-ready financial reporting and presentations used by asset-class presidents and operational leadership to evaluate deal activity and pipeline performance.
- Automated large-scale deal and portfolio reporting workflows, improving data accessibility for financial modeling, performance analysis, and decision-making
- Built dynamic financial dashboards and reporting tools to centralize deal and revenue data, improving visibility and efficiency for finance and leadership teams.

JLL, Chicago, IL

July 2024 – Nov 2025

Financial Analyst

- Served as financial partner to regional leadership supporting forecasting, budgeting, and performance analysis for a \$12M property management finance portfolio.
- Managed monthly, quarterly, and annual P&L reporting and forecasting, incorporating market trends and operating assumptions to improve financial visibility.
- Prepared financial performance analyses and revenue pipeline assessments to support decision-making, including scenario evaluation and performance attribution across portfolios
- Conducted variance and trend analyses to identify risks, opportunities, and performance drivers impacting profitability.
- Supported balance sheet reviews and reconciliations, ensuring data integrity and consistency across financial statements and management reports.
- Executed ad-hoc financial modeling and analytical projects to support business initiatives and senior management requests.

GIP, Deer Park, IL

May 2023 - July 2024

Property Accountant

- Supported property-level financial reporting and analysis, including review of operating performance, expense trends, and account variances across real estate assets
- Managed cash operations for assigned properties, including regular bank reconciliations and monitoring of outstanding checks and reconciling items.
- Delivered accurate monthly property financial statements within strict deadlines as determined by both Client Accounting Services and external clients.
- Analyzed property financials to understand drivers of NOI and operating performance, supporting internal reporting and decision-making

EDUCATION

LEWIS UNIVERSITY, ROMEOVILLE, IL

Jan 2020 – May 2023

Bachelor of Science in Computer Science

Cumulative GPA: 3.6/4.0

Notable Project: Built a Python-based investment modeling system to evaluate valuation, momentum, and risk factors across S&P 500 equities, including back testing of portfolio strategies.
